HISTORY/ ABOUT

INITIAL YEARS OF GOLF

It all started with earning a mere income of Rs. 25 at a tender age of 13 years where he posed as a caddy in Chandigarh Golf Club. To support his family and earn a little pocket money, he caddied on weekends which later turned into a daily affair. Eventually, after saving some money, he bought a few secondhand clubs to try his hands on golf and polished his skills in a ground nearby due to the non-accessibility of the golf club.

PROFESSIONAL GOLFING CAREER

(Turned pro in 2010) After turning pro, life was not very easy, as it required more hard work, dedication and most importantly, financial assistance. In the initial 5-6 years, due to lack of financial support, travelling and playing the tournaments in different parts of the country was quite a hefty task. Due to limited earnings, cheap boarding, accommodation, and lodging were the only options to play the tournaments.

CURRENT POSITION

The commitment and hard work towards the dream of having own house was accomplished on the personal front and shooting career best scores was seen in the professional front. Since the year 2016, a full card to play the entire season on the Indian Tour was granted and is now climbing up the All-India Rankings released by TATA Steel PGTI each year.
